IMMEDIATE, EASY, REAL-TIME ACCESS TO YOUR FLEET DATA THAT PROVIDES INSIGHT INTO BUSINESS CRITICAL VARIABLES

Upstream and Fleetsu have joined forces to bring you the best of breed in Fleet Management and Business Process solutions. The power of our combined expertise means you can rest assured that our dynamic solutions have you covered.

Fleetsu is the most comprehensive Connected Vehicle solution, combining best in class features, telematics hardware, high performance and customisable Automotive Data platform to provide a complete connected vehicle overview.

FLEET MANAGEMENT AND TELEMATICS SOFTWARE

Take control of your business through innovative and real-time insights into your assets and people. Fleetsu software helps customers to save lives, reduce costs and create business efficiencies. Built with numerous features such as vehicle location, fuel consumption data, automatic digital log books, driver safety capture, comprehensive vehicle data, automated alerts, Fleetsu provides insight into business critical variables.

TELEMATICS HARDWARE

Innovative software needs innovative, state of the art hardware. Fleetsu use the best in class, modular telematics hardware that works with all light and heavy vehicles. The easy-to-install plug-n-play, tamper-proof telematics devices understand all car protocols. They provide access to hidden OBD and J1939 data, including odometer, fuel consumption, seatbelt statuses, door statuses and 100 more parameters.

CUSTOMERS ENJOYING FLEETSU'S BENEFITS
